Proposed Itinerary

After meeting your fellow divers for dinner on the first evening, we remain at the Sharks Bay mooring overnight before an early morning shake-down dive on the house-reef before we head towards Sha'ab Abu Nuhas (weather permitting!). The journey time is about 5-hours so there will be plenty of opportunity for some great dives along the way. Crossing the channel to Abu Nuhas can be quite challenging so the weather conditions will be constantly assessed by the captain as the wind and sea conditions can change very quickly. After diving (Insha'allah) in Abu Nuhas we will cross back to dive the Thistlegorm, Dunraven and the best dive sites in Ras Mohammed before finishing the week diving in the Straits of Tiran and then return to Sharks Bay.
